Our computers and mobile devices do wonderful things for us. But they also impose a burden, making it harder for us to focus, do our best work, build strong relationships, and find the depth and fulfillment we crave. How to solve this problem? Hamlet's BlackBerry argues that we just need a new way of thinking, an everyday philosophy for life with screens. William Powers sets out to solve what he calls the conundrum of connectedness. Reaching into the past—using his own life as laboratory and object lesson—he draws on some of history's most brilliant thinkers, from Plato to Shakespeare to Thoreau, to demonstrate that digital connectedness serves us best when it's balanced by its opposite, disconnectedness. Lively, original, and entertaining, Hamlet's BlackBerry will challenge you to rethink your digital life.

Excerpt from Monthly Weather Review: January December, 1891 The average temperature, as determined from the observations taken at telegraph reporting stations, was everywhere above the normal of seventeen years. In the older Provinces the greatest excess was at Charlottetown, but in Winnipeg it was and in the Northwest it was more than 20° at several stations. The highest and lowest temperatures in each Province during January were British Columbia. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The pervasiveness of and universal access to modern Information and Communication Technologies has enabled a popular new paradigm in the dissemination of information, art, and ideas. Now, instead of relying on a finite number of content providers to control the flow of information, users can generate and disseminate their own content for a wider audience. *Open Source Technology: Concepts, Methodologies, Tools, and Applications* investigates examples and methodologies in user-generated and freely-accessible content available through electronic and online media. With applications in education, government, entertainment, and more, the technologies explored in these volumes will provide a comprehensive reference for web designers, software developers, and practitioners in a wide variety of fields and disciplines.

The Shining Mountain

'It's a preposterous plan. Still, if you do get up it, I think it'll be the hardest thing that's been done in the Himalayas.' So spoke Chris Bonington when Peter Boardman and Joe Tasker presented him with their plan to tackle the unclimbed West Wall of Changabang - the Shining Mountain - in 1976. Bonington's was one of the more positive responses; most felt the climb impossibly hard, especially for a two-man, lightweight expedition. This was, after all, perhaps the most fearsome and technically challenging granite wall in the Garhwal Himalaya and an ascent - particularly one in a lightweight style - would be more significant than anything done on Everest at the time. The idea had been Joe Tasker's. He had photographed the sheer, shining, white granite sweep of Changabang's West Wall on a previous expedition and asked Pete to return with him the following year. Tasker contributes a second voice throughout Boardman's story, which starts with acclimatisation, sleeping in a Salford frozen food store, and progresses through three nights of hell, marooned in hammocks during a storm, to moments of exultation at the variety and intricacy of the superb, if punishingly difficult, climbing. It is a story of how climbing a mountain can become an all-consuming goal, of the tensions inevitable in forty days of isolation on a two-man expedition; as well as a record of the moment of joy upon reaching the summit ridge against all odds. First published in 1978, *The Shining Mountain* is Peter Boardman's first book. It is a very personal and honest story that is also amusing, lucidly descriptive, very exciting, and never anything but immensely readable. It was awarded the John Llewelyn Rhys Prize for literature in 1979, winning wide acclaim. His second book, *Sacred Summits*, was published shortly after his death in 1982. Peter Boardman and Joe Tasker died on Everest in 1982, whilst attempting a new and unclimbed line. Both men were superb mountaineers and talented writers. Their literary legacy lives on through the Boardman Tasker Prize for Mountain Literature, established by family and

friends in 1983 and presented annually to the author or co-authors of an original work which has made an outstanding contribution to mountain literature. For more information about the Boardman Tasker Prize, visit: www.boardmantasker.com

“It is about time that a book like *The New School* came along. The age of security as pure technology is long past, and modern practitioners need to understand the social and cognitive aspects of security if they are to be successful. Shostack and Stewart teach readers exactly what they need to know--I just wish I could have had it when I first started out.” --David Mortman, CSO-in-Residence Echelon One, former CSO Siebel Systems

Why is information security so dysfunctional? Are you wasting the money you spend on security? This book shows how to spend it more effectively. How can you make more effective security decisions? This book explains why professionals have taken to studying economics, not cryptography--and why you should, too. And why security breach notices are the best thing to ever happen to information security. It's about time someone asked the biggest, toughest questions about information security. Security experts Adam Shostack and Andrew Stewart don't just answer those questions--they offer honest, deeply troubling answers. They explain why these critical problems exist and how to solve them. Drawing on powerful lessons from economics and other disciplines, Shostack and Stewart offer a new way forward. In clear and engaging prose, they shed new light on the critical challenges that are faced by the security field. Whether you're a CIO, IT manager, or security specialist, this book will open your eyes to new ways of thinking about--and overcoming--your most pressing security challenges. The *New School* enables you to take control, while others struggle with non-stop crises. London, 1732: Nora Reed, the daughter of a merchant, falls hopelessly in love with her father's clerk, Simon. Despite their differing social class, the star-crossed lovers dream of a future on a tropical island - until tragedy strikes, and Nora must face a life without her soulmate. Hopeless, Nora enters a marriage of convenience with Elias Fortnam, a widower and sugar planter in Jamaica. Even without Simon, she is determined to somehow fulfill their tropical fantasy. But life in the Caribbean doesn't turn out as Nora had dreamt. Nora is deeply shocked by the way plantation owners treat the slaves and decides to shake things up on her own sugar cane plantation - for the better. Surprisingly, her adult stepson Doug supports her in this endeavor when he arrives from Europe. However, his return also puts things into a state of turmoil - especially Nora's feelings. Just as Nora seems to be settling into her role as lady of the house, one harrowing event rips everything from her but her life A gripping tale of love and hate, trust and betrayal, and a thrilling destiny set against the pristine beaches and swaying palm trees of the tropics. How to Be a Geek Goddess

Have you ever lost someone who meant more to you than your own soul? Ford Newcombe has. For years he loved his wife, Pat, more than anyone -- and anything -- in the world. She came into his life when he was just an inexperienced college student with big dreams of becoming a published author. With love and humour, she guided him down the path that would eventually lead him to more success than he ever dreamed possible. Since Pat's death six years ago, Ford has lived a life of solitude, barely able to put pen to paper, and rumours are flying that it was Pat who actually created the books the world so loved. If there's one thing that Ford needs it's inspiration, and it finally comes in the guise of Jackie Maxwell -- a smart, sassy university researcher with just enough attitude to match Ford's sharp intellect. But it's her intimate knowledge of the story of a young woman's friendship with the devil -- and what the townspeople did to her -- that persuades Ford to hire Jackie as his assistant and to move to Cole Creek, North Carolina, where the story is said to have taken place. They soon learn that even though the inhabitants of Cole Creek try to deny it, they are still plagued by the consequences of the otherworldly tale of passion and death. As Ford and Jackie work to unravel the truth, they discover a connection between their lives and the past, a connection that not only helps them solve a long-ago crime but offers the promise of new love.

January 1937. Clouds of war are gathering over a fogbound London. Twenty-eight year old Jack is poor, lonely and desperate to change his life. So when he's offered the chance to be the wireless operator on an Arctic expedition, he jumps at it.

Spirits are high as the ship leaves Norway: five men and eight huskies, crossing the Barents Sea by the light of the midnight sun. At last they reach the remote, uninhabited bay where they will camp for the next year. Gruhuken. But the Arctic summer is brief. As night returns to claim the land, Jack feels a creeping unease. One by one, his companions are forced to leave. He faces a stark choice. Stay or go. Soon he will see the last of the sun, as the polar night engulfs the camp in months of darkness. Soon he will reach the point of no return - when the sea will freeze, making escape impossible. And Gruhuken is not uninhabited. Jack is not alone. Something walks there in the dark. A human space traveler trapped on a remote planet must somehow unravel a confounding alien technology—or else surrender himself to a host of incomprehensible horrors For thousands of years, Carter Horton has been traveling across the galaxy toward a distant world capable of supporting human life. At journey's end, awakened from his millennia-long sleep by a curiously adaptive android, he is informed that his crewmates have all perished due to a system malfunction. But worse is yet to come: Horton's sentient ship is refusing to return him to Earth, and a strangely cordial predator is waiting for him on the planet's surface. The repulsive creature, Carnivore, arrived here via a tunnel across the universe, as did his late companion—a human dubbing himself William Shakespeare—whom Carnivore just recently devoured. But the tunnel moves in only one direction, and if Carter is unable to reverse it, he will find himself marooned forever in this incomprehensible world, at the mercy of monsters and a terrifying, mind-freezing alien anomaly that occurs every evening in the "God-hour." With unparalleled verve, award-winning science fiction Grand Master Clifford D. Simak performs a truly astonishing feat of world-creation in Shakespeare's Planet. Bursting with intelligence, imagination, and breathtaking invention, this is a gem of speculative fiction from one of the genre's most revered and innovative artists.

The Ultimate Digital Music Guide

The Directory of Federal Prisons is the most comprehensive guidebook to Federal Bureau of Prisons facilities on the market. Not simply a directory of information about each facility, this book delves into the shadowy world of American federal prisoners and their experiences at each prison, whether governmental or private. What sets the Directory of Federal Prisons apart from other prison guidebooks is the first-hand validation of information. Most prison directories provide basic information that is publicly available (e.g., security level, population number, location, etc.). This book is different. While basic data is included, hundreds of current federal inmates have been surveyed and interviewed in order to ascertain the culture of each institution. This enables the Directory of Federal Prisons to provide information such as the level of violence; whether sex offenders, informants, or LGBT inmates can walk the yard; the status of prison politics and organized gangs; and what prisoners believe is good and bad about each facility. This intelligence is much more important to understanding each prison and the experience therein than basic directory types of information. The Directory of Federal Prisons also includes a detailed discussion of the custody and classification system used by the Bureau of Prisons. This system determines how inmates are scored for security level and prison placement. Readers can use real Bureau of Prisons' case management forms to ascertain an actual security score, thereby taking the guesswork out of security levels, housing determinations, prison transfers, and how Public Safety Factors and Management Variables impact placement decisions. This is knowledge that only seasoned case managers tend to have. In each facility profile, you will learn: -Basic data such as the sex of the inmate population, security level, and medical and mental health care levels. -Physical location and inmate mailing address. -Educational, psychological, vocational, and recreation programs available. -Notable incidents reported by the media (e.g., arrests, riots, significant fights, escapes, etc.). -Reviews by inmates currently at each facility, including information about violence, prison politics, who can walk each yard, and more. -And much more! No one wants to spend time in a federal prison, but if you or a loved one must go, finding quality, reliable information about life on the inside is essential to a safe and productive stay. The Directory of Federal Prisons builds off the award-winning and bestselling Federal

Prison Handbook's reputation as the leading federal prison survival guide. Not only will readers be able to understand all facets of prison life and how to remain safe, they will also be able to evaluate each federal prison and its offerings, know if it is safe to walk the yard, and better evaluate and understand transfer options so that they can make the right prison placement decisions the first time

On October 23, 2001, Apple Computer, a company known for its chic, cutting-edge technology -- if not necessarily for its dominant market share -- launched a product with an enticing promise: You can carry an entire music collection in your pocket. It was called the iPod. What happened next exceeded the company's wildest dreams. Over 50 million people have inserted the device's distinctive white buds into their ears, and the iPod has become a global obsession. The Perfect Thing is the definitive account, from design and marketing to startling impact, of Apple's iPod, the signature device of our young century. Besides being one of the most successful consumer products in decades, the iPod has changed our behavior and even our society. It has transformed Apple from a computer company into a consumer electronics giant. It has remolded the music business, altering not only the means of distribution but even the ways in which people enjoy and think about music. Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself, with commentators remarking on "the iPod generation." Now the iPod is beginning to transform the broadcast industry, too, as podcasting becomes a way to access radio and television programming. Meanwhile millions of Podheads obsess about their gizmo, reveling in the personal soundtrack it offers them, basking in the social cachet it lends them, even wondering whether the device itself has its own musical preferences. Steven Levy, the chief technology correspondent for Newsweek magazine and a longtime Apple watcher, is the ideal writer to tell the iPod's tale. He has had access to all the key players in the iPod story, including Steve Jobs, Apple's charismatic cofounder and CEO, whom Levy has known for over twenty years. Detailing for the first time the complete

story of the creation of the iPod, Levy explains why Apple succeeded brilliantly with its version of the MP3 player when other companies didn't get it right, and how Jobs was able to convince the bosses at the big record labels to license their music for Apple's groundbreaking iTunes Store. (We even learn why the iPod is white.) Besides his inside view of Apple, Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright (as well as his own travels on the iPod's click wheel) to address all of the fascinating issues -- technical, legal, social, and musical -- that the iPod raises. Borrowing one of the definitive qualities of the iPod itself, *The Perfect Thing* shuffles the book format. Each chapter of this book was written to stand on its own, a deeply researched, wittily observed take on a different aspect of the iPod. The sequence of the chapters in the book has been shuffled in different copies, with only the opening and concluding sections excepted. "Shuffle" is a hallmark of the digital age -- and *The Perfect Thing*, via sharp, insightful reporting, is the perfect guide to the deceptively diminutive gadget embodying our era.

"A darned good read finished it in one sitting. Charming characters I'd love to visit again." — Lynsay Sands, New York Times best-selling author of *The Argeneau* series "Thought vampires were dead? Well of course they are, but Jim McDoniel proves that don't have to be boring. Or sparkly." — Veronica Belmont and Tom Merritt, *Sword & Laser* Jim McDoniel's debut novel, *An Unattractive Vampire*, is a darkly comic urban fantasy of ancient horrors in suburban cities. After three centuries trapped underground, thousand-year-old Yulric Bile—also known as the Cursed One, the Devil's Apprentice, He Who Worships the Slumbering Horrors—awakens only to find that no one believes he is a vampire. Apparently he's just too ugly—modern vampires, he soon discovers, are pretty, weak, and, most disturbing of all, good. Determined to reestablish his bloodstained reign, Yulric sets out to correct this disgusting turn of events or, at the very least, murder the person responsible. With the help of pert vampire-wannabe Amanda; Simon, the eight-year-old reincarnation of his greatest foe; and a cadre of ancient and ugly horrors, Yulric prepares to battle the glamorous undead. But who will win the right to determine, once and for all, what it truly means to be a vampire?

Little Murders

"Zoukis gives excellent examples to demonstrate that the U.S. would benefit from higher education for inmates in prison strongly suggested purchase highly recommended"--Choice The United States accounts for 5 percent of the world's population, yet incarcerates about 25 percent of the world's prisoners. Examining a wealth of studies by researchers and correctional professionals, and the experience of educators, this book shows recidivism rates drop in direct correlation with the amount of education prisoners receive, and the rate drops dramatically with each additional level of education attained. Presenting a workable solution to America's mass incarceration and recidivism problems, this book demonstrates that great fiscal benefits arise when modest sums are spent educating prisoners. Educating prisoners brings a reduction in crime and social disruption, reduced domestic spending and a rise in quality of life.

A thrilling romance of fifteenth-century Scotland by a New York Times–bestselling author! Bestselling Author Hannah Howell returns to the splendor of medieval Scotland in this first novel of her new trilogy—a saga of clan warfare, divided loyalties, and forbidden love. Here, in the Scottish highlands of the fifteenth century, a powerful knight meets his match in a mysterious beauty bent on revenge. When destiny brought Sir Balfour Murray and his wounded brother down the same road as Maldie Kirkaldy, she offered her services as a nurse even as she tried to deny the desire this dark-eyed knight had ignited at first sight. Soon they discover that they both share a mission of vengeance, but Maldie cannot tell him her true identity—to do so would brand her a spy. Sworn to avenge his family as chief of the Doncoill Clan, Balfour vows to destroy his greatest foe, with Maldie at his side. Yet Balfour knows that he can no more afford to trust her than he can ignore his lust for this sultry beauty. Now, he is not only determined to unearth her deepest secrets, but also to pursue his passion for her. And nothing will stand in his way.
